Warrant

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School District of the Town of Milan qualified to vote in district affairs :

You are hereby notified to meet at the Town Hall in said District on the 10th day of March, 1958 at 8:00 p.m. in the evening to act upon the following subjects :

1. To choose a moderator for the coming year.
2. To choose a clerk for the ensuing year.
3. To choose a school board member for the ensuing two years.
4. To choose a school board member for the ensuing three years.
5. To choose a treasurer for the ensuing year.
6. To determine and appoint the salaries of the school board and truant officer, and fix the compensation of any other officers or agents of the District.
7. To hear the reports of agents, auditors, committees, or officers heretofore chosen, and pass any vote relating thereto.
8. To choose agents, auditors, and committees in relation to any subject embraced in this warrant.
9. To see what sum of money the District will raise and appropriate for the support of schools, for the salaries of School District officials and agents, and for the payment of statutory obligations of the District, and to authorize the application against said appropriation of such sums as are estimated to be received from the state equalization fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by the town.
10. To see if the School District will vote to elect its officers by an official ballot and to adopt the non-partisan system as provided in Chapter 5-:73, 79-86 RSA.

11. To see if the School District will vote to hereafter use a check-list for the election of its officers, beginning with 1959 annual district meeting, and will adopt as its school check-list, the town check list, as provided in RSA 197-12a, as inserted by the Laws of 1957, chapter 57.
12. To see if the District will vote to raise and appropriate a sum of money, not to exceed \$18,000, for purposes of constructing, equipping and furnishing an additional room and basement to the Milan Village School, vote to issue serial notes or bonds upon the credit of the District under the Municipal Finance Act or any other enabling authority to pay for sum so appropriated, and authorize the School Board to determine the terms and conditions upon which the notes or bonds shall be issued, and further authorize the School Board to take any other action incidental to or connected with the foregoing.
13. If Article 12 is passed, to see if the District will vote to raise and appropriate the sum of \$4,000.00 for the purpose of hiring an additional teacher for the Village School and to meet other expenses caused by the additional facilities.
14. If Articles 12 and 13 are not passed, to see if the District will vote to send all pupils in Grades 7 and 8 in the District to Berlin for their education, and vote to raise and appropriate the sum of \$5,782.00 to cover the tuition and transportational expenses.
15. To see if the District will vote to have a part-time music teacher in conjunction with several other Districts in Supervisory Union No. 20, and to raise and appropriate the sum of \$550.00 as its share of the salary of said music teacher.

*The starred items are required by law to be raised as determined by proper authorities. The District determines the salaries of the District officers. The Supervisory Union Board decides the local share of the Superintendent's salary and other Union expenses. The share paid by the several Districts toward the Superintendent's salary for 1957-58 is as follows: Dummer, \$157.50; Gorham, \$3,105.00; Jefferson, \$405.00; Milan, \$472.50; Randolph, \$157.50; Shelburne, \$202.50. The state Treasurer reports the amount of per capita tax, while the Teachers' Retirement Board assesses the amount for teachers' retirement and the State Employees' Retirement Association assesses the amount for the Superintendent's retirement and other District employees that belong to the system. In those towns that are under Social Security, the amount to be paid by the District is established by law.

The amount of appropriation requested will be reduced by the amount of balance left at the end of the year and by the amount of state aid due the District.

The income from School Lunch is estimated at \$700.00 and is handled as an off-set item.

Report of Superintendent

To the School Board and Citizens of the Milan School District :

FOREWORD

Each year the problem of over-crowded classrooms in the Village School has been discussed and the School Board and Superintendent found ways to "get by" for another year. The number of pupils now in the various lower grades in the Village School and the location of the homes of those who potentially will come to this school, deems it educationally unwise to continue on a hit-or-miss basis. The middle room in this school potentially will have 39-40 children this coming fall and this group will move on to the next room within three years. If it appeared that this were just temporary, we might be able to put up with the inconvenience and poorer instruction. However, the situation looks as though it will continue to be the same or will get worse.

After our school census was taken in September I decided to chart the exact location of the residence of each child going to school in Milan, grades 1 to 8, and those who will be going to school in the future. The population map clearly shows that more than 70% of children, age 1-14, live east of the State Park. In carrying this census forward a few number of years, we find that to keep approximately 18-20 pupils in the lower room in the West Milan School, pupils would have to be transported from the east side of town that live within sight of the Village School. If the present dividing line were to continue for pupil assignment and if the census figures would remain unchanged, the lower room in the West Milan School would have only 11 pupils in 1961-62. It would not seem to me that fewer than 18-20 in this room would be wise from the standpoint of economy. Neither is it good economy or good education to have forty pupils in three grades taught under crowded conditions. Therefore, it appears that the time to remedy this situation is upon us and the following are two proposals to improve the situation.

Plan No. 1 would be to send Grades 7 and 8 on both sides to Berlin on a tuition basis and have all pupils in Grade 6 on both

sides of town taught in Village School. This means that Grades 1-5 would be taught in West Milan for students that live in that section of town. When the population in these grades drops, as it is expected to on the West Milan side, grade 6 would be moved back to this school, also.

Plan No. 2 would see an additional room constructed on the Village School and the present dividing line kept where it is for the next few years. This would mean an additional teacher in the Village School with each teacher instructing two grades.

There are certain advantages and disadvantages to each plan. Plan No. 1 would certainly give those students a better education for grades 7 and 8. We would save the expense of one teacher; but it would also mean additional transportation expense as the conveyor would have to add another bus going to Berlin, as well as the cost of tuition. However, this plan also means that one room in the West Milan School would be occupied by five grades.

Plan No. 2 would mean two grades to a room in the Village School, and keeping the two teachers in the West Milan School, each having four grades as they do now. This plan will take care of over-crowded conditions in the rooms of the Village School. This plan would mean hiring an additional teacher and there would be other miscellaneous increases in expense due to the additional room. The offerings for the pupils would be the same as now, but each teacher in the Village will have fewer pupils.

While the plan for sending the 7th and 8th graders to Berlin seems best, it also is the most expensive and one that the District would have little control over regarding cost. It would seem best to add the room on at the Village School. This plan too would enable the District to consolidate pupils in the Village School at some future date, if it seemed best. The room would be so located on the present structure that additional rooms could be added later if the school population warranted such construction.

The District has three choices to consider at the annual meeting. One is to add a room on the Village School, a second is to send the 7th and 8th graders to Berlin on a tuition basis and third to keep functioning as we are at the present. If this latter course is chosen, it means the continual shifting of the dividing line, over-crowded classrooms and split grades.

TEACHERS

The teaching staff in the Milan schools remained the same as last year. Finding and holding good teachers is becoming increasingly difficult each year. Most of the teachers in our rural elementary grades are those who have come out of retirement after starting and raising their own families. This supply is diminishing each year and the number of graduates from our teacher training schools is not only small, but most do not wish to teach in rural areas, especially in the North Country. The average salary of a beginning teacher today just out of teachers' college is \$3,300. If we hope to be able to keep our present teachers, and more particularly to find replacements for them in the years ahead, salaries in Milan will have to be increased. We are very fortunate in having the staff that we now have, but we have to face the possibility that we will not always have local people to teach in our schools.

ENROLLMENT AND ATTENDANCE

The percentage of attendance was 96.2%, which is excellent for the elementary grades. Number of people being tardy during the year was very low, with only 8 students being late during the year.

BUILDINGS AND EQUIPMENT

The only major item of repairs carried out during the summer was the installation of new stainless steel sinks in both buildings. These two sinks make it much more convenient for the dishwashers, and also more attractive and sanitary for the lunch programs. One classroom was painted in the Village School, but other than that, only the normal refurbishing of the buildings was carried out.

The expense involved in keeping the buildings in repair is increasing each year due to the cost of labor and trying to keep up with the essential things that have to be done. Items in the West Milan School that should be done in the very near future include painting the outside of the building, and making the building a little more air-tight. The first two should be done this coming summer, the others can wait until the Board knows what is planned for school organization in the town in the future.

The moveable equipment in the two schools is quite good. Additional desks were purchased for the Village School, each school now has its own film-strip projector and screen, and an

additional set of encyclopedias was purchased during the year.

In the Village School the Parent Teachers' Association painted **the dining room and kitchen** in an attractive pastel shade of pink. The organization is to be commended and thanked for their contribution.

NOTES ON THE BUDGET

The major increases in the budget are for teachers' salaries and an increase in our transportation costs. The reason for the raise in teachers' salaries was explained under the "teacher's" section of this report. With the awarding of a new transportation contract for the next three years, it was expected that these costs would go up. We all know that the expense of gas, oil, repairs and tires have gone up on our family cars, so it is natural that our conveyor would expect more return on his investment. Other items in the budget have remained about the same or have been increased only to take care of the normal rise in prices that has occurred over the past year.

Milan was fortunate this year in getting such a large increase in state aid. The District received \$10,943.67 this year compared to \$6,355.08 last year and the difference represented a saving of at least \$4.00 on the tax rate per thousand. It would appear that the amount of state aid will be more constant in the future. With more effort on the part of people in towns such as Milan, the amount of state aid could be increased. The increase will be forthcoming only if the legislators know the wishes and desires of the people in the towns. That is why I urge each of you to keep in touch with your representative when the General Court convenes again in 1959.

WARRANT

There are several special articles in the Warrant for your consideration. Articles 10 and 11 give the voters an opportunity to govern their meetings in a more orderly manner regarding voting for candidates and official business. Article 10 means that candidates for the offices would have to file at least two weeks prior to the meeting to be included on the ballot. An official ballot similar to that used in electing town officials would be used in the School District meeting. If Article 11 is passed the town check-list would be used to determine a voter's right to participate in the meeting.

Articles 12 and 13 have been covered under the foreword of this report. :

Article 14 is inserted again in the warrant to give the people a chance to reconsider the close vote of a year ago. Many people have spoken to me and the members of the school board about including it in the warrant again this year. My feeling in the matter has not changed from last year, and I feel if the pupils are not sent to Berlin to school, favorable action on this article should be taken.

Article 15 calls for the raising of money to paint the outside of the West Milan School and to construct a new fire-escape on that building. These repairs seem necessary to safeguard the condition of the building and to assure more safety to the pupils on the second floor if a fire broke out in the building.
